- Self-Motivated
- Able to Multi-Task
- Time Management Skills
- Computer Competent
- Willing to Learn and Try New Things

The above resume is a gift from Common Interests to all who have taken time from their careers to parent their children. It provides a fun filled, but critical, attitude check to assist in the recapture of their 'professional persona.' Essentially it is a 'conversion tool' which allows them to take credit for what they have learned, and accomplished, during this period and put it into 'resume speak.' Read this, and enjoy it, and while doing so think about how this person's resume would now compare to the resume of Mary Barra, CEO of GM, or Howard Schultz, CEO of Starbucks. This resume takes away one's ability to make the statement, "I haven't worked for years.....who would want to hire me now?" Enjoy!!!!
